Recall Escalation Report for Carlos Maceda 2025 07 15.xlsx;

USE CAUTION: External Message.

Dear Carlos Maceda:

The attached recalls are being escalated to your attention. Your organization's recall managers have identified you as an escalation contact for the departments involved and are requesting your assistance in encouraging a timely resolution for these recalls:

Note that the departments involved have already received reminder emails from the system and are copied on these escalation notifications.

As a reminder, each department is expected to do the following in Recall Tracker:

- Document the quantity found of the recalled product
- Document any actions taken to dispose of/return the recalled product
- Mark that department "complete" in Recall Tracker

After doing so, this recall will not trigger further escalations.

Thank you for your support of the organization's recall management process!

Your Recall Manager(s),

Marc Katz
Edwin Mercado - Inventory
Phylicia Henderson
Vikram Mulchandani
Jason Smith
Christopher Paradise
Carmelo Calderon
Jason Rodriguez
NLA - Astrid Lopez - CHP
Rebeca Melendez
